² The term *Country of Origin* includes for the purpose of this document also the term “Country of return” and covers also TCs to which TCNs return on a voluntary basis.

³ For the purpose of this document, the term “Member States” includes also the States participating in the relevant development of the Schengen acquis within the meaning of the Treaty on the Functioning of the European Union and its Protocol (No 19) on the Schengen acquis integrated into the framework of the European Union.

⁴ Under Article 2(6) of the Regulation (EU) 2016/399 (Schengen Border Code) third country nationals are non-EU citizens within the meaning of Article 20(1) of TFEU and who are not covered by point 5 of the Article.

1 Introduction

The EU Reintegration Programme (EURP) is the Agency’s flagship activity on post-arrival and post-return assistance. After two years of the program, the Agency decided to change its name from JRS (Joint Reintegration Services) to EURP (EU Reintegration Programme) due to the fact that Frontex is the only EU entity providing reintegration assistance to MS at EU level. Its aim is to provide harmonised services and assistance to third-country nationals (TCN) from all Member States and Schengen Associated Countries. It contributes to more effective and sustainable returns.

Post-arrival and post-return assistance under the EURP is available for persons returning either voluntarily, voluntarily in compliance with an obligation to return, or enforced. It is implemented by the reintegration partners that have been awarded an annual grant to provide individual reintegration assistance. The implementation is fully digitalised through a dedicated IT tool, in full compliance with the applicable EU data protection.

The post-arrival and post-return assistance can take form through short-term post-arrival assistance, covering the needs for the 14 working days after arrival or/and long-term post-return assistance, covering up assistance up to 12 months after departure. All activities are subject to evaluation and monitoring and implemented in accordance with the respect for fundamental rights and taking into account the best interest of the child.

2 Purpose

This Modus Operandi describes the procedures and specifications through which post-arrival and post-return assistance under the EURP is provided by the contracted RP, and used by MS.

3 Legal basis

Article 48(1)(a)(i) and (iv) of the European Border and Coast Guard Regulation⁵ (hereinafter “the EBCG Regulation”) mandates that the Agency shall provide technical and operational assistance to Member States in all phases of the return process, including in post-arrival and post-return phases, also better known as reintegration assistance.

4 Implementation period

Scope	Period
Framework Partnership Agreements, following Call for Proposals No 2021/CFP/POST/01	28 January 2022 - 27 January 2026
Framework Partnership Agreements, following Call for Proposals No 2023/CFP/POST/02	29 November 2023 - 27 January 2026

5 Scope

5.1 Reintegration Partners

The outcomes of the Call for Proposals No. 2021/CFP/POST/01⁶ resulted in the establishment of four-year Framework Partnership Agreements on Reintegration Assistance (FPA) with the following reintegration partners: Caritas International Belgium (CIB)⁷, International Returns and Reintegration Assistance (IRARA)⁸, Women Empowerment Literacy and Development Organisation (WELDO)⁹, European Technology and Training Centre (ETTC)¹⁰, Life Makers Foundation Egypt (LMF)¹¹. The outcome of the second Call for Proposals No. 2023/CFP/POST/02¹² further extended the geographic scope and resulted in an establishment of a two-year FPA with a new reintegration partner MICADO Migration¹³, as well as previous partners CIB, IRARA, and WELDO.

⁵ Regulation (EU) 2019/1896 of 13 November 2019 on the European Border and Coast Guard (OJ L 295, 14.11.2019, p. 1).

5.2 Geographical coverage

The geographical coverage of the EURP is defined based on the needs of the Member States and bound to the Framework Partnership Agreements (FPA), signed in 2022¹⁴ and 2023¹⁵. The FPAs cover 65 TC available for potential post-arrival and post-return assistance. However, the actual implementation can vary from year to year, with Specific Agreements for particular countries of return signed on an annual basis based on the current needs of MS, the availability of the budget, fundamental rights aspects and policy considerations.

The table below lists the countries for which the EURP will be operational, and where any special conditions may apply.

5.3 Post-Arrival and Post-Return Packages

The assistance offered within the EURP consists of two packages:

- Post-Arrival Package: Comprises short-term assistance covering the immediate needs upon arrival and can be implemented up to 14 working days after the arrival.
- Post-Return Package: Comprises long-term assistance for maximum of 12 months after departure.

The implementation of the assistance is individualised depending on the TCN needs and done in accordance with MS national law. MS have the possibility to assign only one of the above packages or they may combine the short- and long-term support.

The amounts for the packages are defined through unit costs. These unit costs consist of the budget that must be spent in its entirety for a given package. However, in case it is deemed necessary to add additional funds to the costs reimbursed by Frontex, due to national regulations, or in case of vulnerabilities, MS have the possibility to add additional funds to the package through the conclusion of bilateral agreements with the RP.

The implementation of the packages is done through RIAT, facilitating the communication, organisation, and coordination of the assistance between the sending MS, RP and (L)RP¹⁷ from the pre-departure phase until the operational and financial reporting of the cases.

Below the Post-Arrival Package and the Post-Return Package are further elaborated in detail.

5.3.1 Post-Arrival Package

The Post-Arrival Package covers short-term assistance addressing immediate needs of the TCN upon arrival **up to 14 working days**. Assistance may be provided in-cash or in-kind according to the MS' indications prior to departure. Further in-kind assistance can be provided by the RP upon direct request of the TCN after his/her arrival.

To ensure timely and effective implementation by the RP, **all requested assistance** under this package shall be started within **5 working days** after the request has been received by the RP and **end within 14 working days from the date of arrival in the TC**.¹⁸ To that end, MS will ensure that TCNs are provided with sufficient information which includes

¹⁷ The local reintegration partner is a subcontracted partner of the Reintegration Partner that Frontex has a signed FPA with.

¹⁸ The timeframe for the provision of the post-arrival assistance is further explained in section 8.7 on RIAT timers.

flight details, immediate medical needs, contact details, family information, housing and transportation needs. All invoices/proof of payments must be uploaded into the RIAT case.

The Post-Arrival Package consists of the following unit costs:

- EUR 615 per person, in the case of voluntary return, and
- EUR 205 per person, in the case of forced return

The amounts reimbursed per person are the same regardless of the means of transportation.

The eligible services under the Post-Arrival Package:

- a) **Airport pick-up:** the RP or LRP shall arrange for the pick-up of the TCN from the airport or port of entry, if this service is requested by the MS at least 5 working days prior to the departure. The airport pickup will be done landside in a secure location, and the RP or LRP will provide the TCN with a welcome kit consisting of:
 - i) Bottle of water
 - ii) 1 hot meal or a voucher for a meal
 - iii) Age-appropriate children's toys/books/other
 - iv) Pre-paid SIM card with number - to ensure further communication (when available)
 - v) Toiletries set (male/female):
 - Toothbrush and toothpaste
 - Soap
 - Shampoo
 - Female hygiene products, if applicable
- b) **Cash assistance:** a MS can decide to give part of the Post-Arrival Package in cash. As cash withdrawals are bound to national regulations and local realities, the information must be included in the designated field in RIAT.
- c) **Onward transportation:** Feasibility is to be assessed on a case-by-case basis. The MS informs the RP about the needed onward transportation five working days prior to the onward transportation being needed. This service shall also be offered during the eligibility period for this package, of 14 working days from the date of arrival, if the returnee requests it after arrival. Contact details of the TCN are shared prior to return to make the necessary arrangements, if available.
- d) **Housing upon arrival:** Temporary accommodation of emergency housing upon arrival, for one or more nights, as needed, within the period starting on the day of the arrival and ending 14 working days after the date of arrival, should be arranged by the RP. This is possible with or without prior airport pick-up. The MS informs the RP about the needed emergency housing five working days prior to the period for which this service being requested. Contact details of the TCN are shared prior to return to make the necessary arrangements, if available. In case of Unaccompanied and Separated Children (UASC), adequate housing for UASCs must be ensured.
- e) **Medical assistance upon arrival:**
 - i) The needs assessment is done by the sending MS prior to departure, if there are urgent needs on arrival, or can be done by the RP after arrival, within the eligibility period of this package. This kind of assistance entails referral to medical professionals, which can lead to purchase of medication with a prescription or purchase of the over-the-counter medication and short-term medical services. Urgent needs upon arrival would need to be communicated at least five working days prior to the period for which this service is being requested by the MS, or provided within five working days if the need is identified after arrival, within the eligible period for this package. Contact details of the TCN are shared prior to return to make the necessary arrangements if available.
 - ii) Arrival COVID test (or other mandatory medical check) if required for entry to the country of return, if the request for support has been received by the L(RP) at least five working days before departure.
- f) **Family reunification for UASC:** the RP can facilitate and monitor the entire reunification process and inform the MS accordingly. This reunification can be with a family member or with a governmental appointed guardian.

The Post-Arrival Package can be implemented for any means of transportation. However, when the package is provided to TCN on board of a charter flight, the MS organising and/or participating in the return operation needs to communicate this to the EURP Support Desk at least 5 working days in advance in order to coordinate the organisation of the support with the RP. Upon arrival, after the border procedures, the RP will handle the TCN in a secured location. The TCN will be provided with the agreed package, as well as with a welcome kit. Onward transportation, housing upon arrival and medical assistance can be requested by the TCN after their arrival, the cost of the services is to be covered by the Post-Arrival Package.

Note: Systematic use of the Post-Arrival Package for all TCN returning on charter flights can be supported only to certain destinations based on pre-agreed conditions and procedures. The destinations are communicated to all stakeholders in due time.

5.3.2 Post-Return Package

The Post-Return Package covers the reintegration assistance addressing long-term needs of the TCN after his/her return. A tailor-made reintegration plan based on the person's personal situation is developed by the TCN and L(RP) in the process of reintegration counselling and submitted for review. To increase the effectiveness of the reintegration assistance, pre-departure counselling with the TCN is encouraged prior to departure for the MS to provide information on TCN's background and suggestions for reintegration activities.

The tailor-made reintegration plan constitutes a basis for provision of assistance and consequent reporting. Implementation of activities listed in the reintegration plan can begin after approval of the MS and Frontex in RIAT and cannot exceed **12 months after the date of departure**. All expenses must be duly documented, and proof of payments uploaded by the PR into the relevant RIAT case.

The Post-Return Package consists of one or a combination of the following unit costs:

EUR 2000 - main applicant in Voluntary Return, as defined by the MS (VR)

EUR 1000 - main applicant in Forced Return, as defined by the MS (FR)

EUR 1000 - for each additional family member within the same case (same amount for both VR and FR)

The eligible services under the Post-Return Package:

- a) **Cash assistance:** part of the Post-Return Package may be delivered in cash, subject to clear indication by the MS at the time of registration of the application.
- b) **Long-term housing and related cost:** Rent, basic furniture and renovation/refurbishing costs can be paid from the reintegration budget. Long-term housing can be offered for up to 12 months, counted from the date of departure and after the approval of the reintegration plan by both the MS and Frontex. This can also include referral to appropriate housing for vulnerable groups (elderly, USCA, victims of trafficking, etc.).
- c) **Medical assistance:** any type of medical assistance falling within the budget and timeframe for reintegration, including for vulnerable groups.
- d) **Education:**
 - i) **Schooling:** School fees or further education costs for both children and adults can be covered. Specific advice and guidance regarding the most appropriate/adequate structures should be given by the RP. This can also include special needs referrals and schooling.
 - ii) **Vocational training:** fees for vocational training may be covered. Specific advice and guidance regarding the most appropriate/adequate structures should be given by the RP.
- e) **Job counselling and assistance in accessing the labour market:** RP shall inform the TCN about the current labour market and give guidance on how to access it. If needed this can be in combination with referral to other relevant organisations.
- f) **Assistance in setting up a small business:** The RP shall offer assistance to the TCN during the preparation and implementation of a business project. Depending on the needs and capacities of the TCN in setting up a certain business, the role of the RP can be limited/extended. In any case, the RP should advise the TCN about possible business ideas and explore together the strengths and weaknesses of a certain project. In the end, the TCN decides which type of business to implement.
- g) **Family Reunification (monitoring):** The RP checks/monitors if reunification has happened and provides feedback.
- h) **Legal counselling and administrative support:** These activities include advice and referral to relevant organisations in relation to the concrete needs of the TCN. This often goes hand in hand with administrative support - guidance with the renewal of identity documents, driver's license, enrolment of children to school, translations of legal/medical documents, support to UASC regarding guardianship, etc. Due care and specialised assistance to be provided in the case of UASC.
- i) **Psychosocial support:** If needed, the RP will refer the TCN to more specialised organisations/hospitals, private and/or public programmes etc. In the case of vulnerable groups, including USCA, elderly persons or victims of human trafficking, due care and specialised assistance need to be provided.

All other expenses that do not fall under the above categories are not eligible for reimbursement (i.e. - any TC income tax on reintegration assistance is not eligible).

Note: Job placement (wage subsidy): For wage subsidy to be eligible for reimbursement, the TCN must have a stable job and the wage subsidy must be paid out on a monthly basis. If the wage subsidy is not given in parallel with a salary, it is not eligible. An extensive explanation of payments, in the reintegration plan phase, should be made including, job description of the returnee, monthly salary received from the job, monthly wage subsidy, monthly living costs and period that is covered by the wage subsidy.

The RP shall implement the reintegration plan based on the agreement and approval of the MS and Frontex. Any change (or parts of) the reintegration plan shall be duly communicated to Frontex and the MS per email, and in the comment section of the RIAT case, and will be subject to approval by Frontex and MS.

5.4 Eligibility criteria

In principle, MS are responsible for determining the eligibility of TCN according to their national legislation when submitting cases in the RIAT.

Assistance under EURP will be offered following *voluntary* or *forced* return, including to persons in a vulnerable situation.

Frontex's role is to check the eligibility of the cases in accordance with the following eligibility criteria. Please note that TCN enjoying the right to stay, legal residence and/or international protection within the meaning of Directive 2011/95/EU¹⁹, or temporary protection within the meaning of Directive 2001/55/EC²⁰, in a Member State, are **excluded** from reintegration assistance under the EURP.

Cases can be submitted retroactively, which means that TCN may apply for reintegration assistance even after arrival in the TC. For the TCN to be eligible for reintegration support, the case can be initiated via the RP within 5 months after the date of departure as a retroactive case which shall be processed only after acceptance by the responsible MS. The reintegration plan must be validated in RIAT by the responsible MS and Frontex within 6 months after the date of departure.

TCN who refuse to sign an application for reintegration assistance prior to their forced return, can receive an eligibility letter (see Appendix IV) in order to receive assistance after their arrival. If MS wish, they may issue such eligibility letters even to TCN returning voluntarily, if for any reason they do not apply for reintegration assistance before departure. The Eligibility letter is not mandatory for the RP to start a retro-active case, as the eligibility is checked by MS in the validation process of the retro-active case.

A TCN can receive reintegration assistance in a TC where the TCN does not have citizenship, under the condition that there is proof of a permanent residence card or other types of documentation.

6. Financial Provisions

Frontex has concluded Framework Partnership Agreements (FPA) with the RPs mentioned in section 5.1, for a period of 4 years, and 2 years respectively. These agreements can be extended for maximum two years, upon decision of the Authorizing Officer in Frontex.

In line with Article 130 of the General Financial Regulations, the FPAs provide for a long-term contractual partnership with the eligible Partners and are implemented through grants. The signature of a framework partnership agreement serves as a filter for potential applicants and has no budgetary impact.

The invitation to present proposals is restricted to the partners for whom the planned type of action is contained in the action plan annexed to the framework partnership agreement.

¹⁹ Directive 2011/95/EU of the European Parliament and of the Council of 13 December 2011 on standards for the qualification of third-country nationals or stateless persons as beneficiaries of international protection, for a uniform status for refugees or for persons eligible for subsidiary protection, and for the content of the protection granted (OJ L 337, 20.12.2011, p. 9-26)

²⁰ Council Directive 2001/55/EC of 20 July 2001 on minimum standards for giving temporary protection in the event of a mass influx of displaced persons and on measures promoting a balance of efforts between Member States in receiving such persons and bearing the consequences thereof. (OJ L 212, 7.8.2001, p. 12-23)

Only those partners who meet the required criteria (admissibility, eligibility, selection, exclusion and award) may be awarded specific grants, following the assessment of the proposals in accordance with Article 200 of the Financial Regulations. The SA include the financial provisions, reporting modalities and reimbursement rules for the eligible costs such as operating costs, handling fees, and the Post-Arrival and Post-Return Packages.

6.1 Framework Partnership, Specific Agreements and Bilateral Agreements

Framework Partnership Agreement	Multi-annual agreement between Frontex and RPs in the context of the EURP, stating the legal framework for cooperation with the aim of providing post-arrival and post-return support to TCNs.
Specific Agreement Frontex-RP	Yearly financial specific agreement (grant) between Frontex and RPs in the context of the EURP, stating the activities and financial terms and conditions, allowing for coverage of the operating costs, handling fees and reintegration packages (see section 6.2 below).
Bilateral agreement MS-RP ²¹	Agreement between a MS and a RP providing the legal basis for transferring funds to the RP. Frontex is not a party in this agreement.

6.2 Types of costs

Type of cost	Description	Method of cost calculation	Cost intended for
Operating costs	Costs incurred by the Reintegration Partner in order to deliver agreed activities. These costs are related to information and communication, contact with the TCN prior to departure, office running costs, travel costs and staff training. <i>If during the implementation of the FPA, following the yearly call for proposals for specific countries, a different RP or LRP is selected to operate in a specific country of return, other than the one that did so in the previous year, a separate grant to cover the costs relating to closure of cases will be issued to the old partner. All new cases will be redirected to the new partner, If the same partner continues to deliver services, the operating cost will be paid only once to cover new cases and the closure of old cases.</i>	One unit cost as agreed in the SA per month for each TC covered by the RP.	RP
Handling fee	Covers the handling of the Post-Arrival or Post-Return Package for each individual and covers organising the arrival assistance in the TC, organising meetings with the individuals after their return, to develop a tailor-made reintegration plan, counselling, referral and/or reintegration assistance on specific	Two separate unit costs, per person: One unit cost per person for the Post-Arrival Package One unit cost per person for the Post-Return Package	RP/

²¹ Frontex shall not be party to this agreement.

	<p>type(s) of reintegration, and reporting (interim, final narrative and financial report). Handling fees are paid to the RP per assisted person.</p> <p>This fee will also cover the cost of providing a welcome kit to each supported returning TCN that is provided with on arrival support regardless of the mode of transportation (be by scheduled flights, charter flights or other means)</p>	As agreed in the SA per assisted person	
Post-Arrival Package	<p>Covers assistance for the immediate needs of TCN in the first 14 working days after arrival, such as cash assistance, airport pick-up, emergency housing, onward transportation, and short-term medical assistance for each individual. The package can only be granted if there is a minimum of 5 working days²² given to the RP to arrange all activities related to the Post-Arrival Package prior to service being delivered.</p>	<p>Two separate costs: One unit cost per person in VR: 615 EUR One unit cost per person in FR: 205 EUR TCN will also receive a welcome kit</p>	TCN
Post-Return Package	<p>These individual budgets cover the cost of reintegration assistance. The level of the budget is defined by the Post-Return Package as described in section. Frontex covers the reintegration package at the value of the defined unit cost (this could mean partial coverage of the actual cost of reintegration when the latter is higher than the unit cost - see list of eligible costs below). If the MS would like to contribute more to the reintegration, they may do so by signing bilateral agreements with the RP (as explained in point 6.1).</p>	<p>Three separate unit costs: One for a case/main applicant in VR: EUR 2000 One for a case/main applicant in FR: EUR 1000 One for each additional family member (in case the application is for a family) within the same case - same amount for both VR and FR: EUR 1000</p>	TCN

7. Roles and responsibilities

7.1 Frontex

The Agency's main responsibilities are the following:

- Operating a EURP Support Desk (JSD), to ensure the daily handling of cases submitted by MS, and to coordinate communication between Frontex, MS and RP, including handling complaints and requests by TCN. The JSD is responsible for the handling of cases in the various Key Moments (KM), specifically:
 - Approving the eligibility of applications in KM 1.
 - Checking if the activities within the reintegration plan submitted in KM 2 are eligible with the reintegration packages offered under the EURP.
 - Checking in KM 3 if the activities in the final report as well as the supporting documents match the activities of the reintegration plan.

²² The RIAT case must be initiated 19 calendar days prior to departure by the MS via RIAT, for the TCN to receive the Post-Arrival Package.

- Upon request of MS Frontex may deploy Return Specialist to MS to assist with the RIAT and return- and reintegration counselling.
- Providing MS with up-to-date information materials concerning the reintegration support offered in TC as well as and information materials concerning the RP. Any changes shall be communicated by the EURP Service Desk in a timely way and no later than 5 working days.
- Fostering cooperation and understanding with the RP with the aim to increase the level of engagement.
- Managing the yearly MS needs assessment, as well as preparing, publishing, evaluating, and awarding Specific Agreements (SA) with RP, according to the budget available.
- Monitoring and evaluating the quality of the reintegration process, through a dedicated Evaluation and Monitoring Framework. Activities in this regard may entail monitoring missions and compliance checks in line with the provisions of the SA and may include the involvement of European Return Liaison Officers (EURLO).
- Ensuring that all relevant stakeholders, on operational and strategic level (High Level Round Table (HLRT), Working Party on Integration, Migration and Expulsion²³ (IMEX), Management Board, Post Return and Reintegration (PRR), etc.) are up to date of the EURP developments, through various Frontex networks on return, as well as through other return related fora.
- Interact with RIAT coordinators, on a quarterly bases to ensure adequate monitoring.

7.2 EU Reintegration Programme Support Desk

The EU Reintegration Programme Support Desk serves as a first line support for MS and RP. The Support Desk is established in the Post-Return Unit. It is the single-entry point for all operational and technical enquiries and aims at ensuring efficient process flows and assisting MS and RP with requests and inquires related to the EURP. The main functions of the Support Desk are the following:

a) To handle operational related aspects, such as:

- Approve the access of new RIAT users to the EURP;
- Check, evaluate, validate, reject the submitted cases, reintegration plans and final reports in the various KM in RIAT (see below 6.1 to 6.3);
- Provide case-related advice.

b) To handle technical related aspects, such as:

- Identify, register and diagnose technical issues related to RIAT;
- Escalate, if needed, unresolved issues to a higher level of support.

The Support Desk can be contacted via e-mail at EURP@frontex.europa.eu²⁴ from Monday to Friday between 9:00-17:00 CET and, through the phone on the following number +48 22 2366875, from Monday to Friday between 13:00-16:00 CET.

7.3 Member States

Member States (MS) when using the EURP shall:

- Insert cases for reintegration support under the EURP in RIAT.
- Ensure and confirm the eligibility of a TCN under the EURP when inserting cases in RIAT, as well as when receiving a retroactive application inserted by RP (KM1).
- Ensure that TCN are well informed and counselled and are provided with sufficient pre-departure information on the RP.
- Verify and approve the reintegration plan in KM2.
- Verify and approve the completion of the delivery of reintegration assistance in KM3.

7.4 Reintegration Partners

The Reintegration Partners RP shall ensure the delivery of quality reintegration assistance in the TC that are part of the awarded geographical portfolio within the SA through offering services listed in point 5.3.

²³ [Working Party on Integration, Migration and Expulsion](#)

²⁴ Formerly ECRET.JRS@frontex.europa.eu however due to reorganization of the Agency, the email address has been changed.

8. Case Management

The day-to-day management of cases will be done in RIAT. The operational workflow of the reintegration assistance via RIAT for each Key Moment is explained in the following sections.

8.1 Pre-departure

Return and Reintegration Counselling (Key Moment 1)

The MS checks the TCN's eligibility according to the Frontex eligibility rules (cf. section 7. **Eligibility of the TCN**).

The MS ensures that the TCN is provided with sufficient information about the opportunities and procedures to receive **post-arrival / post-return** assistance under the EURP.

Frontex provides detailed information on the EURP in IRMA, RIAT and on the Frontex website.

Application (Key Moment 1)

A case can be initiated by a MS authority or by the RP after return (retroactive cases) after the TCN has expressed interest in receiving reintegration assistance. Retroactive cases (see 9.5) follow the same workflows, being validated by the MS before any reintegration plan can be started.

Prior to collecting personal data of the TCN, the MS must ensure that TCN is provided with relevant information about processing of his / her personal data (see section 10) and that all individuals on the application form have provided their consent for processing personal data on the consent form and in RIAT.

The MS decides on the amount of the reintegration assistance and submits the application in RIAT. The reintegration assistance cannot be smaller in amount than the Frontex packages (see section 6.2). MS may supplement the reintegration assistance if needed. All cases within the EURP must be logged into RIAT before they can be further processed.

The first 3 pages of the application form together with the last page (page 8) (Appendix III) **must** be completed, signed by all TCN included in a case, and uploaded to RIAT. The rest of the form can be used to collect the needed data in case the return counsellor does not have the possibility to upload it directly to RIAT.

In Key Moment (KM)1 in RIAT Frontex acts as active Project Management Office (PMO). This means that once the MS submits the application, it will be forwarded to Frontex for validation/rejection. This validation/rejection refers to the eligibility check done by Frontex. After validation, the case will be forwarded to the RP for its validation. After the validation of KM1 by the RP, the case moves to KM2 in RIAT.

The application shall be submitted in a **minimum of**:

- **14 calendar days** before departure of the TCN, for receiving the Post-Return Package only
- **19 calendar days** before services being delivered, but at least 19 calendar days before the expiration of the eligibility period for Post-Arrival (see section 9.4 on Timers)

This means that for the Post-Arrival Package to be delivered on the day of TCN's arrival, the application needs to be submitted 19 calendar days prior.

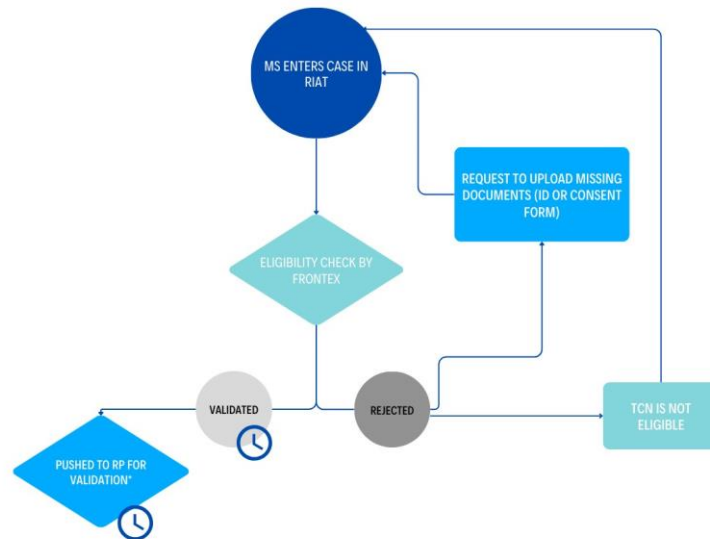

These timeframes are implemented to ensure that the submitted application is successfully validated by all parties in the RIAT workflow before the TCN departs from the MS. Please bear in mind that applications can be rejected for various reasons, including, but not limited to not having all the documentation attached, not indicating the exact date of departure, which makes delivery of post-arrival assistance impossible. If rejected, the application must be corrected and resubmitted for validation.

After submission of the application, all communication proceeds via RIAT. The RP checks and validates the application if it is in line with the requirements stipulated in the Modus Operandi between Frontex and the RP. If the application is not in accordance with those specifications, the (L)RP may reject the application, providing a detailed justification. Should the application be rejected, the MS either makes the necessary changes and re-submits the application, or the application is withdrawn.

After the application is validated, it is transferred by the RP to the LRP, if applicable. Based on the information received from the MS, the RP is responsible for making a comment in RIAT, to confirm that the TCN has effectively arrived in the TC.

NB: If a return flight is cancelled, another flight cannot be serviced by the RP on the next day. If a flight is cancelled, the “**five working days** prior to arrival rule” will be reset to 0 and another **five working days** notice must be given to allow for adequate time to prepare (this could include re-applying for airport access, etc).

WHAT HAPPENS IN KM1?

*RIAT automatically validates the case after 7 days if the responsible user doesn't validate it manually.

8.2 Return

Organising the return to the TC is out of the scope of the EURP, however Frontex can provide support via the Frontex-Assisted Returns (FAR) modules of the Integrated Return Management Application (IRMA). For more information contact the Return Operations and Voluntary Returns Unit in ECRET (HoJ.RVR@frontex.europa.eu).

8.3 Post-Arrival/Post-Return

Preparation of the reintegration plan (Key Moment 2)

After arrival in the TC, the TCN should contact the RP. The reintegration package will remain allocated to the TCN for **6 months after the date of departure**, meaning that the reintegration plan has to be validated by Frontex and the responsible MS within this timeframe. This means that the contact between the TCN and the RP has to be established earlier than the period of the 6-month passing, to allow the time for the reintegration plan to be developed. The RP is expected to register the date of the first contact in RIAT, in order to keep the MS informed (using the RIAT comment function). If 6 months have passed since date of departure without validation of the reintegration plan by both Frontex and Member State, the TCN is no longer eligible for the Post-Return Package and RP will make the necessary actions in RIAT to close the case or push the case to KM3 (in case the Post-Arrival Package was provided),

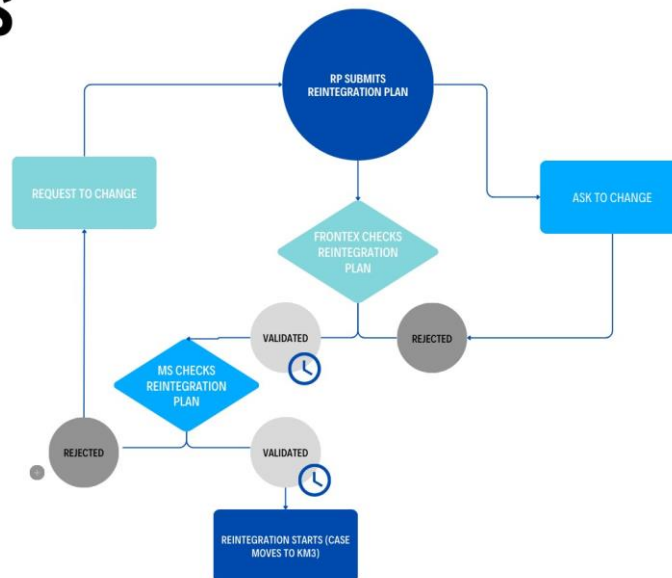

If the TCN has not contacted the RP within **four weeks after the date of departure**, the RP shall proactively try to contact the TCN. To facilitate this, the MS should provide contact details of the TCN in the TC in the dedicated section in KM1.

Once contact has been established, the RP organises one or more meetings in which both sides develop the reintegration plan. In case of an income generated activity, the reintegration plan shall be elaborated, according to the RIAT template and MS requirements. Once the reintegration plan is validated by Frontex it will be reviewed and validated by the MS. If the MS doesn't react within 7 calendar days, the reintegration plan is auto validated in RIAT.

In KM2 Frontex acts as an active PMO by checking if the submitted reintegration plan matches the eligible activities under the EURP. If a reintegration plan is rejected by Frontex or the MS, it is sent back to the RO for amendments and re-submission. Rejections must be duly justified.

Upon submission of the reintegration plan, the RP will upload the proof of payment under additional documents for cases where the Post-Arrival Package was provided. In case the Post-Arrival Package was provided outside the eligibility period (14 days after date of departure), the package is no longer eligible for reimbursement and the package should be removed from the budget in KM2 by the RO.

WHAT HAPPENS IN KM2?

Implementation of the reintegration plan

Once the reintegration plan is validated, the RP starts the implementation, i.e., the budget for reintegration is spent. The RP contacts the TCN as often as necessary to implement and monitor the reintegration process. The RP shall be available to the TCN for additional questions and support. The RP shall register the dates of contact with the TCN in RIAT to keep MS informed (using the RIAT comment function). The implementation of the reintegration plan shall not start including any cash spendings before the plan has been validated by BOTH Frontex and the responsible MS authority.

Any changes to the reintegration plan after the approval of KM2, must be communicated and approved by Frontex and sending MS via both the comment section in RIAT and by email. Expenses made under the original reintegration plan are eligible for reimbursement and form part of the total amount of reintegration budget spending, so proof of payment for both the initial and the changed reintegration plan should be submitted. Expensed made before the approval of Frontex and MS of the new reintegration plan is not eligible for reimbursement.

Providing cash assistance to the TCN can only take place after the approval of KM2 by Frontex and responsible Member State. Cash assistance provided from the Post-Return Package before the approval of KM2 is not eligible for reimbursement in KM3.

The packages provided by Frontex in the framework of the EURP are exclusively dedicated to providing post-arrival and/or post-return support to returnees which are included by the MS in the case in RIAT. Reintegration plans that include support for other persons will be rejected and such expenses will not be reimbursed.

Note: The TCN has 12 months after the date of departure to complete the reintegration and to use the approved reintegration budget. The allocated funds need to be used within that timeframe, in order to be eligible for reimbursement. Activities lasting beyond the 12-month frame, e.g., rent or tuition fees are not eligible for reimbursement.

8.4 Final report (Key Moment 3)

When the budget is exhausted or the timeframe for the implementation has expired, the RP drafts a final report. The final report includes:

- An overview of expenses (with proof of payments, receipts and/or invoices)
- A narrative of the reintegration process

If the budget is exhausted before the 12 months are up, the MS may request that the implementation of the reintegration plan is still monitored by the RP until the 12 months expire. Due to data protection consideration and contractual obligations, any communication or reporting on the further evaluation of the case must be done in RIAT.

The RP must ensure that the available budget was spent and documented in compliance with MS' and Frontex requirements. To allow verification and control, every expense shall be substantiated. **Proof for all payments must be attached to the overview of expenses.**

The Proof of Payments shall contain:

- The date, amount, description of the services/products delivered.
- **In English or with an additional translation from the local language to English**
- The **RIAT case number** allowing to match the expense with the case concerned.
- The invoice may contain the amount in the original currency of the TC and EUR
- All proofs of payments connected to a particular case must be scanned into **one** PDF document before uploading to RIAT.
- The service has to be delivered within the period of eligibility, however the date of the issuing of the receipt can be outside the eligibility period.

Any personal data of the TCN, e.g. IDs and pictures submitted as Proof of Payment shall be blurred out.

Note: The financial checking of cases in KM3 falls exclusively to Frontex, except in the cases where top-ups are provided.

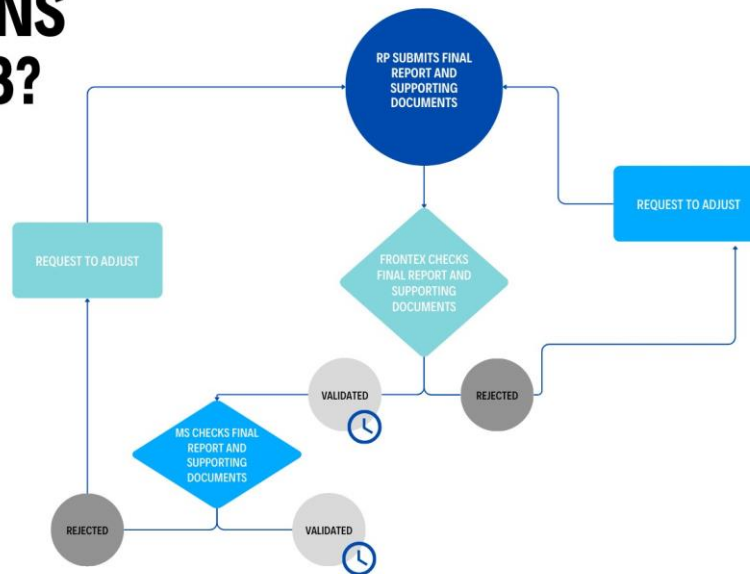

Once the approved reintegration process is complete, and there is a remaining amount of cash not exceeding 50 EUR, the remaining amount can be paid in cash to the TCN, without approval from Frontex and sending MS. Remaining amounts over 50 EUR are categorized as a change in the reintegration plan and will need to be approved by Frontex and MS.

If it happens that a TCN passes away during the implementation of the reintegration plan, the remaining, unspent, amounts cannot be reimbursed to other members of the family, that are not part of the same RIAT case, or be spent on activities that were not included in the reintegration plan. No spending should be done beyond the date of the death of the TCN. If there are family members included in the same RIAT case, the full amount allocated to the case can be spent for the support of the remaining family members. The exact date of passing should be recorded in RIAT.

Once the final report is validated by Frontex, it will be reviewed and validated by the MS. If the MS doesn't react within **3 months of the date of validation by Frontex**, the final report is auto-validated in RIAT.

In KM3, in RIAT, Frontex acts as an active PMO. The visual process flow within RIAT can be found in Appendix I to the Modus Operandi.

WHAT HAPPENS IN KM3?

8.5 Retroactive cases

When a TCN returns to his/her country of origin without applying for assistance before departure, for various reasons, be it that it was a non-voluntary return or there was no counselling available, they can still benefit from support for a limited period of time.

The application can be lodged by the TCN with the RO which in turn would seek the approval of the eligibility of the TCN by submitting a “retroactive” case in RIAT.

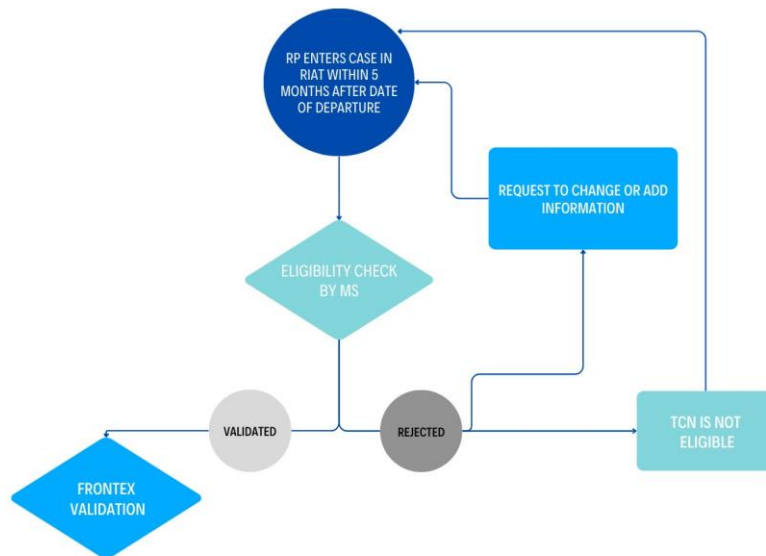

The TCN would still need to fill out an application form, sign the consent form regarding the sharing of their personal data and provide a copy of their travel/ID document. The RP would then upload the documents in RIAT and send the case to the responsible MS for approval within 5 months from the date of departure, indicating the exact date of departure from MS/arrival in TC.

Once the application is approved by the MS, the case becomes a regular RIAT case and moves automatically to KM1. The responsible MS has 10 working days to approve the retro-case. If not accepted and validated within this timeframe, the case will be automatically rejected in RIAT.

If the TCN is deemed non-eligible by the responsible MS authority according to national regulations, a comment in RIAT stating the decision is required and, if possible, explanation of the basis may be provided for the RP.

Within the EURP, the availability of support is limited to maximum 6 months after the date of departure, meaning that the **Reintegration Plan must be drawn up and validated by Frontex and the MS within 6 months from the date of departure, to remain eligible for support.**

RETROACTIVE CASES

8.6 Blank cases

It might occur that, due to the nature of forced returns, and/or due to the divergence of national procedures in organising such returns either by charter or scheduled flights, submitting a case to the RP with adequate notice so they can effectively provide arrival assistance, may be challenging. The main reason for this is because of the fact that the names of the TCNs are not always known more than **5 working days** prior to departure, as these kind of returns generally lack proper counselling of the TCNs, and above all, due to the non-cooperative behaviour of many TCNs in question. However, also in this case, the RP must be informed at least **5 working days**²⁵ prior to the arrival of any TCN to ensure they properly prepare for the arrival.

For this reason, there is a possibility to create “blank” cases in RIAT, that contain no personal data of the TCNs. This workflow is used to inform the RP about the upcoming return and the number of TCNs that they should expect, without informing them on who those persons are.

The RP main additional task in such situations is to offer the TCNs, on arrival, the support that they are eligible for and, if they accept it, help them complete the application and consent forms as well as obtain a copy of their travel documents. Once the RP has obtained the paperwork, the files will be uploaded to one of the previously created “blank” RIAT cases.

When creating “blank” cases, the MS should create 1 case for each returning person, whether they are part of the same family, or not. The case should only contain the Post-Arrival Package. Once the period for providing the above-mentioned package, and the 14 days are over, proof of payments should be uploaded to RIAT and the case should be closed unless the case also includes the Post-Return Package.

Note: While this procedure in principle is allowed, it is restricted to only a few destinations approved by the High-Level Round Table for Return taking into account the budgetary constraints. The destinations are communicated to all stakeholders in due time.

8.7 RIAT Timers

The purpose of timers within RIAT is to ensure that cases will progress within the timeframe allocated for reintegration. Once the pre-defined time period has passed, the case will be auto validated and moved to the next status in RIAT.

²⁵ The timeframe for the provision of the post-arrival assistance is further explained in section 8.7 on RIAT timers.

Overview of timers in RIAT for each user and KMs

RIAT user or TCN	KM1 (application)	KM2 (reintegration plan)	KM3 (final report)
TCN	-	6 months after date of departure ²⁶	12 months after date of departure
MS	-	7 days to validate	3 months to validate
RP	7 days to validate	7 days to validate	-
Frontex	7 days to validate	7 days to validate	30 days to validate

These timers will be affected by various holidays. Communication regarding the various extensions will be communicated separately.

8.8 Comments

Due to the very high caseload and many status comments that the users attach to the RIAT cases, any comment that requires an approval or action, be it a change needed in the reintegration plan, flight details requiring an update in order to ensure a well-organised post-arrival assistance are updated, or something else, an email communication should be sent, including the case number, as well to ensure timely resolution of the requests or actions. Supporting documents should not be uploaded in the comment section but are requested to be uploaded in the corresponding fields in RIAT.

9. Data Protection

Personal data of TCN, in the context of the EURP, is processed by the Agency on the basis of their consent. Consent has to be obtained in accordance with the conditions of Article 7 of the EUIDPR. Consent has to be provided by every individual mentioned on the application form for the processing of his/her personal data. In case of jointly returning minors, the consent is granted by their legal guardian. Consent shall be provided at the moment of submitting the application by the TCN to MS or to the RP. Personal data shall not be processed before the consent has been provided.

During the counselling on the EURP, MS and RP shall provide the TCN with the privacy notice (Appendix VI) and explain the main elements related to processing of personal data in the context of the EURP, including about insertion of personal data into RIAT and transfer of the TCN' personal data to RO, including those located in the third countries.

Frontex provides MS and RP with the privacy notice that must be made available to the TCN, and with the general guidance on processing of personal data within the EURP.

MS and RP shall ensure strict confidentiality of the data provided by the TCN.

Allocation of roles and responsibilities between MS and Frontex in the context of the EURP are described in the "Agreement on the allocation of roles and responsibilities for the use and management of the Reintegration Assistance Tool (RIAT), and protection of personal data" / joint controllership agreement.

Allocation of roles and responsibilities between Frontex and RP, as well as data protection obligations of RPs are laid down in separate data processing agreements that are integral part of the specific agreements (SA).

In case of data protection questions, MS and RP can contact Frontex DPO at dataprotectionoffice@frontex.europa.eu.

10. Fundamental rights

The Fundamental Rights Officer (FRO) is mandated with monitoring Frontex's implementation of its fundamental rights obligations in accordance with EU and international law and with advising the Executive Director on fundamental rights-related issues. The FRO and the staff of the Fundamental Rights Office have an independent role within the Agency to support its work from a human rights perspective and to reinforce the respect, protection, and promotion of fundamental rights. In order to effectively monitor the agency's compliance with fundamental rights, the FRO can conduct investigations into any of its activities and carries out regular on-the-spot visits.

In line with FRO guidance reintegration assistance must not be offered if returns are not possible due to human rights and security situation concerns in the particular TC. In unacceptable security and human rights circumstances, reintegration assistance should not be used as an incentive for return.

²⁶ If the reintegration plan is not submitted in RIAT within 6 months after the date of departure, the reintegration plan can no longer be granted.

The Fundamental Rights Officer might engage fundamental rights monitors for monitoring return related activities.

The situation in the TC will be constantly monitored to ensure that any fundamental rights concerns are evaluated, and risks are mitigated. The geographical coverage may be changed during the implementation of the EURP, with countries being activated or deactivated, or implementing RP, as a result of these evaluations.

Building on the Fundamental Rights Due Diligence Procedure on Frontex Cooperation with Third Countries (FRDDP), specific criteria applicable to this section relates to potential security and fundamental rights risks that could directly impact on the completion/success of a given return operation. This impact can be measured inter alia by 1) the current security and political situation of the country of return (whether it represents a real and credible threat to the returnees); 2) potential fundamental rights concerns that can effectively undermine or hinder the realization of the return operation substantiated by sources of information provided by reliable partners in the field.

Furthermore, the FRO recommends the following safeguards to be in place, as a baseline for ensuring a safe and dignified return to all guarantees: 1) a set of criteria in FAR for all types of return to evaluate eligibility conditions and calls for their application in cooperation with the national authorities (such as region of origin or area of intended stay after the return, whether reintegration scheme or assistance is provided and mention to high-risk areas). FRO also recommends a periodical review of the country situation.

For voluntary returns, FRO suggests that TCN has received information about the current human rights and socio-political situation in the country of return and the related risks concerning their security and wellbeing and that acknowledging these circumstances, the TCN provided his/her consent (in writing) confirming their willingness to return to the country of origin. In case the individual to be returned belongs to any of the recognized vulnerable persons category, additional safeguards need to be in place to guarantee his/her safe and dignified return.

11. Complaint Mechanism

In accordance with Article 111 of the EBCG Regulation, the Agency set up, in cooperation with the FRO, a Complaint Mechanism to monitor and ensure the respect for fundamental rights in the Agency. Any person who is directly affected by the actions or failure to act of staff involved in an Agency activity and who considers him or herself to have been the subject of a breach of his or her fundamental rights due to those actions or that failure or failure to act may submit a complaint. The complaint may be presented by any party representing such a person and will be handled by FRO.²⁷ Any other type of complaint can be addressed to the EURP Support Desk at EURP@frontex.europa.eu or to the RP directly, by using their own established complaint mechanism.

12. Reporting requirements

Member States

Further reporting by MS is not required. The RIAT dashboard, which is available for all RIAT users, provides complete information on active cases and their current status.

Reintegration Partner (Local Reintegration Partner)

Reintegration Partner is required to provide:

- A bi-monthly financial monitoring table
- Case related reporting as described in KM3 (see section 9.4)

At the end of the duration of the Specific Agreements, the Reintegration Partner is required to provide:

- Final report on the implementation of activities under the Specific Agreements;
- Final Financial Statement;
- Final Payment Request;
- Final Joint Reintegration Counselling Mission Report (if applicable).
- A list of Post-Arrival Packages on the template provided by Frontex.

13. Evaluation and Monitoring Framework

In view of fulfilling Frontex's role in "applying the quality framework in managing the EURP provided to TCN who are referred to the Agency by MS, the Agency is developing the Evaluation and Monitoring Framework (EMF) based on the Better Regulation guidelines and toolbox 2023²⁸. The aim of the EMF is to provide quality, evidence-based evaluation

²⁷ <http://www.frontex.europa.eu/fundamental>

²⁸ Better regulation' toolbox - July 2023 edition: Better regulation: [Better regulation: guidelines and toolbox \(europa.eu\)](https://www.europa.eu/better-regulation)

of the EURP performance. To achieve this goal, a comprehensive system is set up, composed of 3 main elements: monitoring, evaluation, and reporting.

Monitoring is based on four types of monitoring tools grouped according to the types of data collected:

- quantitative data from RIAT database;
- qualitative data based on surveys;
- qualitative field data gathered during monitoring missions and other visits on the spot;
- risk related data included in the EURP Risk Register.

Based on the information collected during monitoring, the **evaluation** aims to assess the EURP performance systematically and objectively against 5 evaluation criteria. Two types of **reports** are envisaged as outcome of the EMF:

- Monthly Dashboard Reports based on key performance indicators from RIAT and enclosed to the monthly EURP Newsletter in IRMA;
- EURP Annual Evaluation Report based on data collected by all the monitoring tools.

The EMF is under full development and will become an integral part of this Modus Operandi.

Appendix VI - Privacy Notice for TCNs

DATA PROTECTION NOTICE

FOR EU Reintegration Programme (EURP)

Frontex, the European Border and Coast Guard Agency, and the Member State responsible for handling your application process your personal data for the purpose of providing you with reintegration assistance after your return. Frontex also processes personal data for the purposes of financial verification in accordance with Regulation (EU) 2019/715²⁹.

The reintegration assistance is provided through the EU Reintegration Programme (EURP).

Frontex and the Member States are joint controllers for processing your personal data. The Director of the Returns Division of Frontex is the Controller of the processing of the data at Frontex.

Frontex provides the Member States with technical assistance to deliver the necessary reintegration services as mentioned in your application. Frontex has contracted Reintegration Partners in each of the third countries who are directly responsible for assisting you. Assessment of your application and your reintegration needs is done exclusively by the Member State handling your application.

Frontex processes your personal data in accordance with Regulation (EU)2018/1725³⁰ and Management Board Decision 4/2024³¹ on the general rules for processing personal data by the Agency.

Personal data processed for the purposes of EU Reintegration Programme is the data you include in your application, your identity document(s), your travel itinerary, and any information included in the supporting documents you provided, such as documentation confirming your vulnerability or special needs.

Legal basis for processing your personal data is your freely given consent, that you provide when submitting application for EU Reintegration Programme. You can withdraw your consent at any time, but please remember that you will not receive further reintegration assistance after you withdraw your consent.

In order to provide you with the reintegration assistance through EU Reintegration Programme, your personal data is shared with local reintegration partners. Please note that most of the reintegration partners are not established in the European Union. Therefore, there will be a transfer of your personal data to the local partners in third countries.

Your personal data is processed on paper and electronically in the Reintegration Assistance Tool (RIAT) which is a digital case-handling and data collection IT tool, managed by the European Commission developed for monitoring of reintegration cases.

The application form and any personal data contain in the application form or provided during the application process will be deleted from RIAT at the latest 30 days after the closure of the case. Personal data contained in the financial documentation will be retained for the maximum period of 10 years in accordance with Article 47 of the Regulation (EU) 2019/715.

There will be no automated decision-making or profiling upon your data.

You have the right to access your data, to object to processing your data, have it deleted, restricted or rectified at any time. You may contact the Controller at Frontex at EURP@frontex.europa.eu.

You may also contact Frontex Data Protection Officer at dataprotectionoffice@frontex.europa.eu.

You have the right to lodge a complaint with the European Data Protection Supervisor at edps@edps.europa.eu.

Any request to either the Controller or the DPO which is not related to data protection and the exercise of the rights granted under Regulation 2018/1725 will not be responded to.

²⁹ Commission Delegated Regulation (EU) 2019/715 of 18 December 2018 on the framework financial regulation for the bodies set up under the TFEU and Euratom Treaty and referred to in Article 70 of Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council.

³⁰ Regulation (EU) 2018/1725 of the European Parliament and of the Council of 23 October 2018 on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of such data.

³¹ Management Board Decision 4/2024 of 18 January 2024 adopting the general rules on the application of the Data Protection Regulation by the Agency.
